

## **Creation Prayer Requests for March 2021.** Thank you for praying.

- Monday, March 1** - Pray for Christian camps and their directors across our land. Pray that God will so overrule in the affairs of men that full camping programs can resume this summer to His glory and the salvation of many souls.
- Tuesday, March 2** - Uphold in a special way the women and men serving in our police and military services. They often risk their very lives to keep us safe and free, and they seldom get thanks for doing so.
- Wednesday, March 3** - As France's President threatens to ban homeschooling and openly declares his will to impose a unique secular world vision on all kids in his country, families in Canada, and especially in Québec, fear that they will be the next on the list. Pray for the protection of our right to educate our children and to teach them God's Word.
- Thursday, March 4** - Pray for **Sharon Foreman** (CSSI) for wisdom to use time and creation resources wisely in spite of restrictions upon us.
- Friday, March 5** - Pray that many would be encouraged to trust in God's Word and, ultimately in Jesus Christ, through the 'Untold Secrets of Planet Earth' book series written by **Vance Nelson**.
- Saturday, March 6** - Pray that the EYM personnel will be faithful and able to carry on the work God has given them to do.
- Sunday, March 7** - A group of people in Kamloops, BC lead by **Sandra Cheung** have developed materials for a 5 day creation day-camp program. Pray for her and contact her at <cdsciencecamp@gmail.com> if you would like access to these materials.
- Monday, March 8** - Thank God for each of the magazines and radio programs which focus on spreading Creation information. Pray that each of these will be even more effective in reaching people with this solid foundation for Christianity and Special Creation.
- Tuesday, March 9** - CSABC says, "Praise God for successful Zoom meetings with **Mike Oard** and the possibility God has given us with this technology to reach many who we could not reach otherwise."
- Wednesday, March 10** - Pray for the CSAA executive that they will enjoy good health and energy to support their role and tasks.
- Thursday, March 11** - Pray again for **Roger Oakland** and his work through the Bryce Homes International and UTT ministries.
- Friday, March 12** - Remember **Don Hamm** (CSSI) and his family in prayer today.
- Saturday, March 13** - Pray for our political leaders that we may be able to lead quiet and peaceable lives in all godliness and honesty. (See I Timothy 2:2) (CRM)
- Sunday, March 14** - Pray for Church Leaders to proclaim the awesomeness of Special Creation and the abundant evidence (both Biblical and scientific) which supports it.
- Monday, March 15** - Uphold in prayer **Ian Juby** who does much of the work for CORE.
- Tuesday, March 16** - Pray for the effectiveness of the many excellent creation resources (books, DVDs, radio programs, etc.) being produced and distributed by ICR.
- Wednesday, March 17** - **St. PATRICK'S DAY**. St. Patrick showed us how one individual, totally committed to God's Will, can be used to touch many lives. Pray that more of us would be that devoted to our Lord and that we would see what God can accomplish through us.
- Thursday, March 18** - AiG-C asks prayer for God's blessings upon those who attend their Mega Conference and Boot Camps that are scheduled for this summer.
- Friday, March 19** - Pray for the translation of new creationist articles (from English to French) for ACS's web site.
- Saturday, March 20** - Ask God to bless the efforts of the many small (and often volunteer) Creation ministries around the world. They fill an important function in spreading the Truth.
- Sunday, March 21** - Pray that the Discerning the Times Prophecy Conference planned for Saskatoon next month will be able to go ahead and that it will be an encouragement and blessing to many.
- Monday, March 22** - Ask for God's strength and provision for **Dennis Siemens** (CSSI).
- Tuesday, March 23** - Pray **Vance Nelson** and his family will be healthy and safe as they travel and minister for God in western Canada.
- Wednesday, March 24** - Pray for CMI-C event planners as they struggle to book speaking events due to changing levels of lockdown.
- Thursday, March 25** - Thank God for a successful launch of the CSABC online resource store. Pray that it becomes a blessing to all who search for faith-building material.
- Friday, March 26** - Pray for CSAA members as they provide information and encouragement to those seeking advice or resources concerning creation.
- Saturday, March 27** - Pray God's blessing and protection on the many Creation Museums such as ICR's Discovery Centre for Science and Earth History, AIG's Ark Encounter and Creation Museum, the Big Valley Creation Science Museum in Alberta, and other such educational centers.
- Sunday, March 28** - In these days of regulated public gatherings, pray for Christian schools/colleges, that they would be able to continue to educate students of all ages, in the whole truth of God's Word.
- Monday, March 29** - Pray earnestly for the people of the United States in these dark times. (Canada and many other countries are not much different so pray for them as well.)
- Tuesday, March 30** - Remember **Rudi Fast** (CSSI) in prayer today.
- Wednesday, March 31** - Pray that people would realize through the created things and His written Word, that the God who Created the Universe is a personal God and has a plan of Salvation for sin-sick mankind.
